

A Latte Fun

Safety and Protocols

Please read the following changes and safety precautions our A Latte Fun team is taking to keep our families and staff safe!

❖ **Check In Procedures:**

We will be taking reservations for open play and limiting the number of children in the play areas(You can book online to reserve your play spot). WALK INS are always welcome if space is available.

- ❖ You can also book a VIP play group for your friends and family- minimum 6 maximum 18 children, by emailing us @ info@lattefunlongisland.com

- ❖ 1 adult per child will be admitted into the play space at this time, if our session is at capacity. Any other guest joining, may stay in our cafe.
- ❖ Upon arriving at A Latte Fun if there are guests checking in, please wait outside to avoid crowding and respect social distancing signs.

We are closely following CDC guidelines regarding masks and recommendations and the coronavirus cases in our area.

❖ **Face Coverings:**

Whether you are fully vaccinated or not we are still **strongly enforcing** mask wearing in our play areas for the safety of all.

- All caregivers who are not vaccinated must have a mask on in the play area to protect themselves and our children. While in the cafe area, face coverings may be removed while at a table to eat or drink.
-
- Children over the age of 3 are strongly encouraged to wear face coverings, but are not required to do so at the discretion of the caretaker.

Masks may be removed at tables when seated.

We ask if you have any symptoms of Covid 19 or general sickness that you stay home.

If you have noticeable symptoms, you may be asked to leave and return another time.

❖ **Cleaning/Sanitizing:**

Everyone will be asked to sanitize or wash their hands before and after entering the play area. We strongly encourage frequent hand washing and the use of sanitizer which can be found throughout our space.

- ❖ No outside food or drinks will be permitted- due to allergies and increased risks. If you have dietary or other needs please contact us, so we can be aware and accommodate you.
- ❖ Tables in our cafe will be 6 feet apart, with ample space to social distance. Please only put your things down at the table you will be occupying.
- ❖ Improved air quality- We have added HEPA filters to our HVAC system to purify our air flow, which remove particulates from the air; along with adding our Medify Air purifier to our space! Our Medify Air purifier has high-efficiency H13 HEPA filters which are tested to removed 99.9% of particles down to 0.1 microns. Commonly referred to as medical grade air filtration. It easily catches pollen, dust mites and other tiny airborne particles you can't see. Dual air intake with 2 sets of filters which is powerful enough to cover up to 5,000 SQ FT every hour.
- ❖ Enhanced sanitizing procedures- We pride ourselves in the cleanliness of our play area and cafe. We are leaving ample time between play sessions to disinfect and sanitize between groups.
- ❖ Our staff will be deeply sanitizing every morning, during play, between sessions and our nightly deep clean routines will be increasing. Bathrooms and high touch point areas will be frequently disinfected several times during play sessions and throughout the day.
- ❖ We leave ample time in between play sessions to wipe down all our equipment, toys, and touch points. We use a steam method to sanitize all of our equipment and toys. We also use safe, effective products to

clean and disinfect. We have our “yucky bucket” for immediate attention, which our guests are encouraged to use during their play session. We soak all of our toys every night for a deep clean/disinfecting process.

Thank you for your continuing support and being cooperative as we navigate these necessary changes.

We look forward to playing with you soon!
