

A Latte Fun

Safety and Protocols

Please read the following changes and safety precautions our A Latte Fun team is taking to keep our families and staff safe!

We will be taking reservations for open play and limiting the number of children in the play area per play slot. (You can book online to reserve your play spots). One adult per child will be permitted. If there are two adults, one will be asked to sit in our café.

You can also book a VIP play group for your small group minimum 6, by emailing us @ info@lattefunlongisland.com for availability. A non-refundable deposit will be required to hold a date and time.

1 adult per child will be admitted into the play space at this time

Upon arriving at A Latte Fun if there are guests checking in, please wait outside to avoid crowding and respect social distancing

All caregivers will be required to wear face coverings/masks. Only while sitting a table will it be permitted to be taken off to drink or eat.

Children over the age of three and school aged are **STRONGLY encouraged to wear a face mask.**

Everyone will be asked to sanitize or wash their hands before and after entering the play area

No outside food or drinks will be permitted

Tables in our cafe will be 6 feet apart

We have added HEPA filters to our HVAC system to purify our air flow, which remove particulates from the air.

Enhanced sanitizing procedures- We pride ourselves in the cleanliness of our play area and cafe. We are leaving ample time between play sessions to disinfect and sanitize between groups.

Our staff will be deeply sanitizing every morning, during play, between sessions and our nightly deep clean routines will be increasing.

We leave ample time in between play sessions to wipe down all our equipment, toys, and touch points. Some products we use that have been proven by the CDC TO kill viruses: clean smart toy disinfectant, Lysol disinfectant spray, and Clorox wipes. We have our “yucky bucket” for immediate attention and soak all of our toys every night for a deep clean/disinfecting process.

Thank you for your continuing support and being cooperative as we navigate these necessary changes.

We look forward to playing with you soon!
